GUCKER, STEPHEN

ART UNIT

PAPER NUMBER

1647

DATE MAILED: 04/08/2003

3

Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1647

Response to Amendment

1. The Examiner would like to thank Applicant for the response to the previous request for information under 37 CFR 1.105. However, due to differing sequence listings in these patents and patent applications, the Examiner is forced to request further information.
2. Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application:
 - (1) Because of the large number of sequences and fragments of sequences presented for examination in the instant claims and in multiple co-pending and allowed applications, the Examiner is making a request for a listing and identification of all applications that Applicants have filed that claim the instant sequences either as discrete SEQ ID NOs or fragments of larger sequences in any methods of administration and/or treatment. The Examiner is making this request because the sequence listings in some of these applications exceeds 300 SEQ ID NOs, and the numbering scheme between applications has not always remained constant, such that a SEQ ID NO in one application may not correspond to the same SEQ ID NO in another application. **In addition, the Examiner requests Applicants' assistance to identify which SEQ ID NOs correspond to which SEQ ID NOs currently being claimed in methods of use in the instant Application where the SEQ ID NOs are not identical. If fragments of larger sequences are being used or encoding nucleotide sequences, Applicants are requested to identify these sequences or subsequences by amino acid residue or nucleotide numbering.**

Art Unit: 1647

3. The fee and certification requirements of 37 CFR 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 CFR 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement under 37 CFR 1.105 are subject to the fee and certification requirements of 37 CFR 1.97.

4. The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete reply to the requirement for that item.

5. This requirement is subject to the provisions of 37 CFR 1.134, 1.135 and 1.136 and has a shortened statutory period of TWO months. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gucker whose telephone number is (703) 308-6571. The examiner can normally be reached on Monday to Friday from 0930 to 1800. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Kunz, can be reached

Serial Number: 08/734,592

on (703) 308-4623. The fax phone number for this Group is currently (703) 308-4242, but Applicant should confirm this by phoning the Examiner before faxing.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0196.
